MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Drug Display - Expression of Appreciation

I have seen some of the formal recognition of Agency officers who contributed to the drug display which won the Billings Medal at the American Medical Association meeting in San Francisco. I understand that others in the Offices of Medical Services and Logistics made important contributions to this very successful effort but have not been openly identified and recognized.

I would appreciate your expressing to all concerned my appreciation and that of the Agency for their combined effort which has resulted in the award of this high honor to the Agency.

Mr. Helms

I did this without names because the list got a bit awkward. If you agree, Log and Medical will steer notes to the proper personnel files.

NOTE FOR: Deputy Director for Support

Jack,

We are pleased to receive the attached. On this subject of recognition we, too, wish there were some way that others who contributed to the exhibit could also be recognized. In particular, it was the Operations Division that was instrumental in our office in initiating the exhibit concept and putting together the material.

[redacted] were the OD <sup>STAT</sup> members.

It would be worthwhile if the Director could take note of those who contributed but cannot be publicly recognized by reasons of cover.

STATINTL

Dear [REDACTED]

Very recently I was pleased to meet Dr. Jako of the Boston University School of Medicine. During the course of informal conversation, he noted that the exhibit, "Drug Abuse," received the Billings Gold Medal for 1972, and wide recognition at the last Annual Meeting of the American Medical Association in San Francisco. Inasmuch as your work on this exhibit, and that of your colleagues, may not have come to the attention of the public in general, I thought you would at least like to know that those of us who are presently involved in an intensive Federal-State-local cooperative effort aimed directly at illicit drug trafficking in more than 30 principal American cities especially appreciate your efforts. STATINTL

I am sending a similar letter to Doctors [REDACTED]  
Congratulations and best wishes to all of you for a job well done.

Sincerely,

MYLES J. AMBROSE  
Special Consultant to the President
